She is in a dangerous condition from a rare form of lockjaw which has affected her throat and which the doctors say results from repeated colds contracted in automobile rides. For several days the Dowager's mania has been to "go scorching" through Rome and the adjacent country in her high-powered car and though she suffered severe car and though she suffered severe colds after nearly every one of her trips she failed to heed her doctor's advice. Her neck is swollen until it has distorted her appearance. Her sufferings are intense. Physicians are in attendance upon her night and day but so far the malady has failed utterly to respond to every known treatment. The illness of the Dowager Queen is of several weeks' duration, but only in the last few days has her condition become so grave that it was condition become so grave that it was deemed advisable to inform the public

New York, May 24—Coney Island yesterday was the same Coney Island that it has been on any Sunday in its early season during the last several years. With the arrival of the firemen came the police reserves of the men came the police reserves of the Eleventh street station who turned out in response to a telephone message that there had been a Black Hand explosion at the post office.

Columbus, O., May 24.—They put lit-tle Harvey Johnson in a dark cell to-day and before they take him out they day and before they take him out they will rivet an iron chain and ball on his leg to discourage any further attempts of his to get out. "Take it from me, young man, that I'm mighty glad I am not in the Police Department these days. There was a time when I wanted to be back, and wanted to be back bad. But, say, you take it from me I'm not sorry I am not there in these days, when the Mayor has Coney Island on the begain.

"Say, what do you think would fave happened if the Mayor had given me an order to close up the people's playground by the sea? I say that is when me and him would have locked horns good and proper. We'd a had it out, all right, all right, and then he could have took his job. He had better use the police to clean up the city of crooks, especially safecrackers.

"That's no joke. There are more safecrackers working in this town than you'd dream of. I say that in the last five years 1,500 safes have been broken open, though there ain't any talk about it in police circles. Why, the time has come when if a gang of cracksmen want to break open a safe, all they do is to drive up to the place in a wagon, load the safe on it, and carry it to a place to be opened at their convenience. There ain't any of the old-time copys to stop them. We have a Commissioner now.

#### **CUTICURA PROVEN PURE** SWEET AND HARMLESS

A New York friend of Cuticura writes the following interesting letter:— "My three year old son and heir, after being put to bed on a trip across the Atlantic, investigated the state-room and located a box of graham crackers and a box of Cuticura Oint-

ment.

"When a search was made for the box, it was found empty and the kid admitted that he had eaten the contents of the entire box spread on the crackers. It cured him of a bad cold and I don't know what else."

and I don't know what else."

No more conclusive evidence than the above could be offered that every ingredient of Cuticura Ointment is absolutely pure, sweet and harmless. If it may be safely eaten by a young child, none but the most beneficial results can be expected to attend its application to even the tenderest skin or youngest infant. This feeling is shared by mothers and nurses to such an extent that Cuticura Soap and Cuticura Ointment have for many years been unhesithat Cuticura Soap and Cuticura Ointment have for many years been unhesitatingly used throughout the civilized world for preserving, purifying and beautifying the skin, scalp, hair and hands of infants and children from the hour of birth. And greater still, if possible, is the confidence reposed in Cuticura Remedies for the treatment of torturing and disfiguring humors of the skin and scalp. The suffering which they have thus alleviated among the young and the comfort they have afforded worn-out and worried parents have led to their adoption in countless homes as priceless agents in the speedy, homes as priceless agents in the speedy, permanent, safe and economical treatment of infantile and birth humors, eczemas, rashes, irritafions, inflammations and chafings, and other itching, scaly and pimply humors when all other remedies suitable for children fail.
